Success in Central America!

LTI is partnering with a sister ministry to train pastors in Central America! Over the past five years, Project Hope has used the LTI program to graduate 130 pastors in Nicaragua!

The results have been so effective that Project Hope has built two buildings, or training centers, one on the east side and one on the west side of the country. They have expanded their training to reach 250 more pastors throughout Nicaragua.

Nicaraguan Pastors Graduating from LTI Program

In 2019, Project Hope is expanding their pastoral training effort into Haiti. They have donated \$15,000 to LTI to sponsor a Creole translation of the program and will launch their training in January!

“LTI has the best training program and resource materials in the world for training pastors in underprivileged locations. We will continue to use it and find new places to expand!”
 – Tom Cook, Project Hope

Your giving helps LTI provide our training program at a very reduced price for churches in the USA, so cost does not become an obstacle for training ministry leaders.

“My wife and I completed the LTI program in Virginia. We learned essential leadership skills that have helped us plant & grow a very strong church in Nebraska!”
 – Pastor Jonathan & Jene Chapman

Year-End Request

Please consider a generous donation to LTI as the year-end approaches. Your year-end giving helps LTI provide greatly needed training to ministry leaders outside the USA who would never have access to the quality and depth of training that LTI provides.

“LTI has equipped me to greatly change my church and now we are changing our villages and the nation.”
 – Nicaraguan Pastor
